SUGGESTED REVISION TO IPC LIST ON USSR

Objective I c

(C) GUIDED MISSILES

Paragraph (as shown)

ADD

The 1:100,000 topographic map series covering the entire area of the USSR has been completed by the Soviets, however, the U.S. has not obtained a single sheet of the reported 20,000 sheets in this series. The Soviets have also produced 1:25,000 and 1:50,000 topographic maps for strategic areas and are currently engaged in extending these series to cover the entire USSR. The collection of the 1:100,000 and the 1:25,000 and 1:50,000 published since 1945, and the related geodetic data, are required to obtain target location information vital to the ability of the U.S. to successfully counter a possible Soviet missile attack.

<u>NO.</u>	<u>TARGET</u>	<u>LOCATION</u>
1	Glavnoye Upravleniye Geodezii i Kartografii (Chief Administration of Geodesy and Cartography) and subordinate elements.	Moscow Furkascovskiye per., 5/12
2	Voyenno-topograficheskoye Upravleniye (Military Topographic Administration) and subordinate elements	Unknown
